WIN  **24/7 PROTECTION** 

A HUNTER DIGITAL TRAIL CAMERA*
WHEN PURCHASING FROM THE CLIK™ RANGE

Every purchase of 2 x 20 L from the CLIK™ range gets you in the draw to win a Hunter Digital Trail Camera.

CLiK™ EXTRA **THE BENCHMARK IN BLOWFLY STRIKE PREVENTION.**

EXTRA STRONG

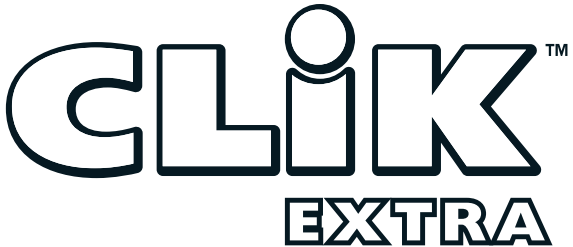

CLiK Extra contains 30% more dicyclanil, the same proven active ingredient in CLiK Spray-On. Dicyclanil is an extremely potent insect growth regulator that interrupts the lifecycle of blowflies. It prevents emerging larvae from moulting into damaging second stage maggots, thereby preventing flystrike.

EXTRA FLEXIBILITY

CLiK Extra Spray-On is a ready-to-use spray-on formulation that can be applied to sheep with any length wool from four weeks after shearing. With a short 21-day meat withholding period, CLiK Extra is ideal for protecting docking wounds.

Active ingredient	65 g/L dicyclanil	50 g/L dicyclanil	12.5 g/L dicyclanil
Application timing	From 4 weeks wool	Any length wool	Any length wool
Length of protection	14 to 26 weeks	10 to 18 weeks	6 to 9 weeks
Wool withholding period	2 months	2 months	2 months
Meat withholding period	21 days	56 days (Merino) 35 days (Other)	7 days
